

# Retaking a Quiz or Test

You may retake a quiz or test in Geometry by completing a retake form.

- 🍎 If you get an F on a quiz or test, you **MUST** retake it.
- 🍎 The score you receive on the retake will replace your original grade, even if it is lower than your original grade!
- 🍎 You must attend one hour of tutoring with a teacher before you can retake any quiz or test.
- 🍎 To schedule a retake, please follow these steps:
  - Get a retake form from the teacher or website.
  - Have your parent or guardian sign the form and return it.
  - Work with a teacher during tutoring to improve your understanding of the content on the quiz or test and have the teacher sign the form.
  - Turn in completed Retake Form with Signatures and original test/quiz.
- 🍎 A retake may be scheduled during one of the following times:
  - Thursday Afterschool in Room 7314

**Retakes are the best way for students to have another chance to learn the standard and show their most current level of knowledge. Please take advantage of this opportunity to succeed.**
