

Your Learning Community (Partners)

Why should you study with your peers?

- You can share strengths and also develop your weaker skills.
- It will help you improve your understanding of the subject explored.
- Build your communication skills.
- Your peers can support you by providing you with missing notes and assignments.
- Creates a platform for motivation and accountability.

DIRECTIONS: You must choose peers from any Geometry class. They will be your study buddies. If you are absent or miss a class for any reason, rely on your study buddies for any notes and missing assignments.

If you meet to study, you must complete the **LEARNING COMMUNITY FORM** and turn it in for a free homework pass.

Name	Phone #	Student Signature	Teacher/Period

****Minimum of 3 students per group****
